Sixth Form Curriculum Offer 2022 - 2023

Generic Information:

We expect our students to select four 'Level 3' qualifications when joining our establishment in the Sixth Form. The reason for this is to offer a wide variety of academic and vocational experiences that will expand upon our students pre-existing knowledge, giving a greater opportunity to access new and exciting opportunities for the future. Students will have access to a mixture of A-Level and BTEC Level 3 qualifications which will suit their needs for future career prospects and university placements. Students who do not meet the entry requirements for certain subjects will be advised to consider alternative qualifications that will support their potential plans after Sixth Form.

BTECS:

Our double BTEC subjects are equivalent to two 'Level 3' qualifications, meaning you will learn in greater detail about that subject. Those students wishing to take a double qualification will therefore need to consider up to two more additional subjects they would like to study alongside the double qualifications. Some students for example, may select two double qualifications and therefore may only be studying two subjects in tremendous detail.

Maths and English resit:

Any students accepted into the Sixth Form who do not have a 4 grade in GCSE Maths or English, must continue to take those subjects until they have secured a 4 grade. This is a condition of being accepted into our Sixth Form. Students will also be expected to pay for resit examinations in these subject areas.

PHSE:

All students in years 12 will be take part in enrichment lessons every week which will be spread out throughout the year. Our intention is to make these experiences as thought provoking and engaging as possible, offering students the opportunity to experience their next steps in an appropriate fashion.

Mentoring:

In year 12 students will complete a mentoring course which will enable them to take a mentoring role for two hours per week. Mentoring will be allocated dependent on interests and skills. All Sixth Form students are expected to support younger students with reading and literacy skills as part of the mentoring role.

Results:

For external candidates, please ensure that your GCSE results are returned to the school no later than Monday the 29th of August to allow us time to process your application and submit any offers. To share evidence of your results, please email: coltonhillsschool@wolverhampton.gov.uk

Please refer to the Sixth Form options leaflet for detailed entrance requirements for all courses. All students are expected to attend the Sixth Form induction programme at the end of June. If you are unable to attend, please inform our reception team or Mr Ryan as soon as possible.

You can find out further information about our curriculum offer from Mr S Ryan – Sixth Form Leader.
